EXPERIENCE

Content Manager | Copywriter | Web Dev   Flagstaff, Arizona

Self-Employed   Jan 2020 - Present

- I operate my own freelance business. I offer a variety of services, including content management, web development, writing, editing, and SEO.
- View my profile to see client feedback and other information. I am 'Top-Rated Plus' on UpWork with 100% Job Success.
- I work with clients and oversee my employees using a variety of remote work technologies.

Restaurant & Community Manager   Hana, Hawaii

Hana Farms   Feb 2022 – Oct 2022

- Operated all aspects of a wood-fired pizza restaurant in an international tourist destination (Maui, Hawai'i), including ordering, scheduling, inventory, food prep, recipe creation, etc.
- Prepared healthy, well-balanced meals for the farm community of ∼20 residents/workers.
- Worked closely with our Farm, Bakery, and Marketplace managers to run a lucrative, multi-faceted business on the famous Road to Hana. Settled interpersonal disputes between community members.

Resort Manager   Garden City, Utah

Water's Edge Resort   Jan 2019 – Jan 2020

- Managed all aspects of a full-service restaurant that served breakfast, lunch, and dinner on the road to Yellowstone and Grand Tetons National Parks. Additionally, I managed the luxury condos and boutique hotel that were connected to the restaurant.

PROJECTS

Pure Recipe

Project Link: `https://github.com/atiumcache/pure-recipe/`

- A program to view ad-free recipes in the terminal or save the output to a markdown file. Works for dozens of popular recipe websites.

The Game of Life

Project Link: `https://github.com/atiumcache/game_of_life/`

- A terminal-based implementation of John Conway's Game of Life. A classic example of cellular automata, mathematical modeling, and artificial life.

Flavor Pairings Web App

Project Link: `https://github.com/atiumcache/flavor-pairings-website`

- Provides flavor pairing advice based on a user's inputted ingredient.
- Utilizes Python, Flask, HTML, and CSS. The program takes in a large collection of food data, cleans and organizes it, and provides the user with accurate, well-formatted recommendations.

SKILLS

- **Programming:** Python | C | Java | HTML | CSS | Flask | Git | SQL | Hugo
- **Communication:** I have lived and worked in close community with people from all over the world through my diverse employment experiences and participation as a Couchsurfing Host and a Workaway Volunteer. I prioritize clear and effective communication in all aspects of my life.
